

PENCIL GRINDERS

Pencil Grinders are excellent tools for deburring, contouring and light grinding when used with a rotary burr. The small diameter and light weight make easy and precise operation. Fuji model FG-07-1 has double bearing spindle support and is joined to the rotor spindle with a coupling to reduce vibration

TURBO GRINDERS

Super high speed operation gives precise finish. Ring throttle, 3 mm or 1/8" collet size and 6mm or 1/4" collet size are selectable according to applications.
